B Origin - The Signature | 120 minutes **| £175**

This fully immersive treatment starts with a foot bathing ritual, drawing toxins from the body and reducing inflammation. Shiatsu massage opens the body's meridians to unblock energy channels, Swedish massage targets areas of concern and releases specific points of tension and a heated chakra stone delivers a gentle abdominal massage to improve gut health. A face and Indian head massage calms the mind and increases circulation to improve scalp and hair condition. The treatment finishes with assisted yogic breathing to oxygenate and invigorate the mind and body.

B Well Rituals | 90 minutes **| £130**

B Silent

Chronic stress is one of the main causes of depleted serotonin and can affect our ability to sleep well. This treatment is devoted to relaxing your body and preparing it for sound, restful sleep. Deep relaxation with a foot bathing ritual. Followed by a Japanese Shiatsu rocking techniques and therapeutic back massage with our B silent body oil. A sequence series of assisted stretches designed to release stress, loosen tight hips, unlock the lower back and gently rotate spine. Massage on the neck and chest will aim to release any stress or tension. Finally, the B silent organic temple balm massage is applied to the forehead to complete the treatment with Indian head massage that will encourage a peaceful sleep.

B Vibrant

A revitalising experience to energise the body, awaken the senses and increase positivity. A refreshing foot bathing ritual followed by sound therapy, work to rebalance the energy channels. Gentle exfoliation, using a warm botanic sugar polish, rejuvenates the skin and increases circulation. Stimulating marma point, full body and Indian head massage using cool, clarifying Citrine crystals, combined with soothing breathwork, to focus the mind and leave the body relaxed yet invigorated.

B Balanced

Our full-body treatment is designed to alleviate symptoms brought on by hormonal changes and long-term illnesses. Whether your mind, body or energy field feels off balance, this treatment is dedicated entirely to nurturing your well-being and bringing you back to balance so, for its entirety, you feel calm, comforted and cared for. The treatment begins with calming breathwork exercises which your therapist will guide you through. Bamboo tapping is used to improve circulation, while gua sha massage and cooling gel application release excess heat from the body. Two meridians are targeted to clear heat, reduce water retention, and restore energy. As the treatment ends, with a firming face massage, you can expect to feel rested, rebalanced and more like yourself again.

B Strong

This deep tissue massage uses a combination of shiatsu and traditional techniques to work with the deep layers of muscle tissue and treat acute tension and injuries from overuse. Adhesions in the muscles can cause pain, inflammation, and restriction of movement so this massage works to increase blood flow, realign the different layers of tissue, relax tight muscles and encourage them to strengthen and heal.
